1200 Markley Drive - Plymouth, IN 46563 - Ph: 574-935-5175

Norco 71232 2 1/4 Ton Low Profile Floor Jack with Double Pump Piston. A heavy duty floor jack designed for a variety of automotive shop uses where additional strength and dependability are required.

Features:

- Steel hydraulic block assembly includes dust seals to prevent oil contamination.
- Long, removable two piece handle.
- Safety by-pass system protects pressure cylinder.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Heavy duty chassis for added strength and dependability.

Norco 72200C 22 Ton Capacity Floor Jack. 50" long "T" handle helps in positioning jack under vehicles with low overhang. Jack release valve is top mounted at "T" handle and allows jack operation at any handle position. Handle locking lever secures handle in either vertical, horizontal or 45 degree position.

Compact design fits easily between tandem wheels. Rust inhibitive coating on ram and extension screw. Self-retracting ram eliminates manual lowering of jack. Safety by-pass system prevents jack from being used beyond its rated capacity.

Norco 72450a - Air/Hyd Telescopic Transmission Jack. Pneumatic primary stage for fast rising is activated by depressing a foot pedal. Hydraulic secondary stage is activated by a fast rising hand pump to raise the load and release a knob to lower the load. Safety by-pass system prevents the ram from being overextended and causing damage to the cylinder. Air and hydraulic rams are flash chromed to inhibit rust. Fully adjustable universal saddle with adjustable corner brackets and safety chain. Wide base with four 3" diameter swivel ball bearing caster wheels provides stability and easy maneuvering.
